

## **Conflict Minerals**

### **Bison Metals Technologies Conflict Minerals Declaration**

As required by the Conflict Minerals provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act, HR 4173, Section 1502 ("Conflict Mineral Act"), Bison Metals Technologies presently works with our suppliers to confirm that their supply of materials does not contain minerals that directly or indirectly finance, or benefit armed groups in the Democratic Republic of the Congo (DRC) or an adjoining country.

Bison Metals Technologies has not and will not knowingly purchase raw material supplies that contain conflict minerals which directly or indirectly finance, or benefit armed groups in the DRC or an adjoining country. Due to the complexity of the routes by which metals, and in particular precious metals, are smelted, recycled, and sold, including the common practice of commingling ores and scrap from many different sources, it is often impossible for any company to obtain full traceability to an exact origin of all. However, we continue to take continuous practical action to seek to ensure that minerals from the conflict region do not enter our supply chain, including obtaining reliable certificates of origin for all materials that might possibly originate in areas or adjacent countries.

If you have any questions, please feel free to contact our Quality Department at 833.90.BISON or [heath.payne@bisonmetals.com](mailto:heath.payne@bisonmetals.com)
